

In the exhibit of work from the Riv-uride school which has been in place it the city and county building during third grade, under children of the third grade, inder the direction of Mrs. Porter, is included in the regular school work, and is a delight to all interested in the work of the school room, as well as to the children school room. ed is covered with sheets stitched by the girls, and n stitched by the girth or shaped by the little people, ithmetic, geography and literature have been used in the construc-tion of the little house, and the results ident in the added interest

The following beautiful and impressive programme was rendered by the webster school Thursday afternoon: Opening song, "Tis Love Brings Us Adress Professor Lyman of ersity of Utah; state peace Josephine Spencer, read by West; chorus, "Peace on Earth, nomity west, thirds, reace on Earth, room 6; presentation of resolutions, Henry Willie; "Lest We Forget" (Rud-yard Kipling), read by Ethel Cheshire; Websier

A most enthusiastic meeting of the parents of the Wasatch school was held Friday afternoon at the close of losed by the home and education sec-tion of the Ladies' Literary club, was discussed and the sentiment was found be heartily in favor of supporting the movement. By the opening of school in the fall it is hoped to have the matter completed. A large num-ber of the parents of the district were in attendance at the meeting. A talk by Mrs. Elliott, explaining the meaning of a model corridor and its effect on the pupils of the school, was much en-Mrs. Igieheart gave a talk on the benefits already seen in the art lines in the schools.

Final examinations in the subjects of rimal examinations in the subjects of pammar and arithmetic for admission to the High school have been given to the pupils of the eighth grade througheut the city during the week. The boys and girls are well pleased with the sets of questions sent out, and find the requirements are more for the quality of the work done than for the amount of technical knowledge acquired. The questions are largely of a practical nature and cover the ground of the work done in the eight years of the grade

The Fremont school gave a very suc ressful entertainment Friday evening in the Fourteenth ward amusement hall. The programme was mainly a musical one, the most enjoyable num-ber being a cantata, "A Dream of Fairyland," which was produced entirely by little tots from the beginners' first and second grades. Some fine stereopticon views were shown and a fan drill given. The cantata will be repeated next Friday evening in the Pitteenth ward hall. The proceeds of the entertainments will go toward the

There is an abundance of flowers in the city at this season of the year, and the teachers in the city schools have been made to feel the generosity of their pupils by means of the customary "flower shower." A kindly custom car-ried out last fail was the distribution of the flowers among the poorer pa-tients in the hospitals. It is hoped that the work is still progressing. At the

Friday afternoon at the Hamilton school an interesting parents' meeting was held. "The Evils of the Cigarette Habit' was the subject under consideration, and Dr. Railly presented a very able paper. At the close of his paper, Dr. Railly led a discussion, in which the patrons took part, and Mrs. Stove of the Woman's club made a number of very good points. Children from rooms 3 and 6 presented several musical numbers.

The Evils of the Cigarette Miss Moench reports the girls' fencing apparatus on hand, and bloodless battles raging.

High School Notes.

High School Notes.

The fine weather of the past week has afforded excellent opportunities to the art readers for out of door work. Many dainty water color and percil sketches have been made of bits of scenery. Some very creditable drawings of trees in pencil were done by Ruby Scranton, Johanna Schiek, Adelaide Nelson, Salina Brown, Blanche Whittredge, Bessie Mulholland and Mary Lusher. A particularly artistic sketch of the gate opening upon the driveway, with the overhanging trees, was the work of Louise Kener. In water colors of flowers Harriet Cohn and Ileene Pratt both have good studies of pansies. Wild phlox forms the subject of dainty and artistic sketches by Blanche Newcomb and Mary Hartman. Creditable studies of fleur-de-lis were done by Ethel Scranton. Bertha Crowler, Luctle Morrison, Flossie McDougall. Hortense Hodgson, Mary Hartman and Helen Letchfield. Ada Whittlesey has completed an Ideal head of a girl, which shows ability in the drawing and coloring. Some original designs in poster, one for the road race. Decoration day, the other for the track meet at Ogden, are the work of Ernest Evans.

The commercial students in shorthand are much interested in the individual speed tests which began on Friday, and will be continued during the remainder of the term. Some very good records are being made, which will doubtless be bettered after a few weeks of this rapid practice.

Mr. McKay's class in commercial law has finished the sublect of "Assawa".

week and the protection of the free Minder can party at the surveyor. The surveyor of the surv

The stock market has settled back into a seasonable condition of duliness during the week at a generally lower level of prices. A process of readjustment has been in progress both in the stock market and the money market. This has been accomplished rather by a shifting of accounts than by any accounts. This has been accomplished rather by a shifting of accounts than by any active liquidation, although there were some sharp declines forced on Monday incident to the discrimination by the money lenders against some of the collateral that has found its way into loans during the late season of liberal credits. This weeding out process was the consequence of previous developments in the Webb-Meyer stocks and the constriction of the money supply that had been disclosed by the bank statement of last Saturday. Energetic measures for the recuperation of the money market were taken, which were facilitated by the high rate for money ruling here.

The distribution on Monday of a \$10,000,000 dividend to the subscribers of United States Steel corporation underwriters' syndicate attracted attention to the enormous profits of underwritto the enormous profits of underwriting. The total subscriptions were for \$200,000,000. Of this 12½ per cent, or \$25,000,000, was paid in. The paid-in capital has been returned to the subscribers, and two dividends of 5 per cent, and the subscribers and two dividends of 5 per cent, and the subscribers are to the subscribers. are being made, which will doubtless be bettered after a few weeks of this rapid practice.

Mr. McKay's class in commercial law has finished the subject of "Agency," and on Monday will begin "Partnership."

Miss Peterson's first year Latin class has completed the first book in Latin grammar and exercises, and is now ready for second year reading.

All of Mrs. Jennings French classes are now reviewing their year's work. The English division of the sophomore class has handed in some well prepared note books on "The Merchant of Venice."

The note books just completed in Miss Clarshan's freshman classes contain a study of "The Vicar of Wakefield" in relation to settling, plot, character and other essentials. Both in form and subject matter, these books are particularly creditable.

The past week in connection with their study of the plot in "Silas Marner." Miss Corbin's sophomore classes in English have handed in plots for original short stories. Some of their outlines will later be worker up into short stories.

Next Wedneeday a special drill, including battallon parade, will be given by the cadets for the benefit of the eighting grade teachers and the principals of the different buildings. After the drill Mr. Friday afternoon the cadet corps is now taking up extended order, a fact which indicates very encouraging progress, as it is seldom that cadet companies reach this point in so short a time.

Mr. Pendergrass a time a principal has been returned to the sub-scribers, and two dividends of 5 per cent each, or 300,000,000, and two additional 5 per cent, of the cash capital employed. It is expected that to a principal to a principal amounting to 80 per cent of the cash capital employed. It is expected that was a finished from the underwriting to \$40,000,000.

The past week in connection for the septiment was a proportunity to attend the field meet at the university. The cadet corps is now taking up extended order, a fact which indicates very encouraging progress, as it is seldom that cadet companies reach this poin
